UM304PR

Bench

NeoBarcino ECO

Plástico reciclado 100%

20 years warranty

Low maintenance

ISO 9001 | ISO 50001 | ISO 14001 | ISO 45001

The NeoBarcino ECO bench is completely MAINTENANCE-FREE, made from 100% recycled and recyclable plastic. Both the feet and the planks are made from recycled plastic from selective collection packaging. The seat and backrest are made from ReBnew planks reinforced with a metal profile for the seat. The bench with armrests is made from high-pressure injected polymer with a Marson finish. It requires no maintenance, does not splinter or crack, nor does it rot or dry out. It is resistant to humidity. Highly resistant to inclement weather. Resistant to all types of chemical agents, even allowing it to clean graffiti and other materials.
Stainless steel screws. Recommended anchoring: Using Ø10 expansion bolts depending on the surface and project.

Available in different materials:
UM304N - Ductile cast iron feet + Tropical wood planks
UM304AL - Aluminum cast feet + Tropical wood planks
UM304NMTP - Ductile cast iron feet + Technical wood planks
UM304NPRH - Ductile cast iron feet + Recycled polymer planks
UM304PR - Recycled polymer feet + Recycled polymer planks
