RUSTICA S
VL1S

Sturdiness . Precision, strength and perfect finish.
- Letters created with 3 mm hot-dip galvanized steel sheet metal, laser cut and welded, with a baked-on powder coat finish.
- Metal base or finial with the same finish. This finial will serve as a base to support the letters and will house the anchors with a locknut at the bottom.
- This base or finish will be anchored to hard ground (wall, stone, pavement).
- If the location is on soft ground, a concrete slab will be created where the cap will be installed with metal anchors and chemical resin.
- Measurements: 1.40/0.70 m high x 20 cm deep.
- The width will be sized according to the letter.
