

Spring Sky

JFS11

1+

Certified
EN1176
product

The thrill of flying a tandem airplane with friends hanging from the wings. Fun Springs for kids that enhance their learning. Made with durable materials and certified according to EN1176.

A=4230mm 13.40m2 0.73m 4

B=3490mm

Materials:

Panels, HDPE: High-density polyethylene characterized by its resistance to chemical abrasives and its resistance to corrosion as a polymer. Due to its elasticity and lightness, it offers high impact resistance, making it very difficult to break.

Structure, Laminated wood: Autoclave-treated Scandinavian pine (Class IV). When exposed to variable weather conditions, laminated wood may develop small cracks that do not reduce its durability. Resin and knots are its natural component.

Metal parts: AISI-304 stainless steel, hot-dip galvanized steel, and aluminum. Galvanized and oven-painted steel with high resistance to abrasion, corrosion, chemicals, stains, and weathering.

Screws : Electro-screws and stainless steel 8.8 DIN267, AISI-304.

- None of the materials require special treatment for disposal.
- If the equipment is subject to severe use, the maintenance plan should be increased.
- Do not use the product before completing installation/maintenance.
- See maintenance instructions.

Largest piece (mm): 1640x460x280 / Heaviest piece (kg): 25.50

IMPACT ZONE: Required safety surface. Floor covering in accordance with EN1176-1:2017 is recommended.
Spare parts availability: 10 years.

Ground anchoring screws not included.
