

Swing Odin

JL17D

3+

Certified
EN1176
product

Children's swings of different materials such as wood and steel. Swings for children with great resistance to abrasion, corrosion and very resistant to the elements.

The user can set the swing in motion independently or stop it using the ropes. To close the entrance, pull the ramp with the side chains and lock it with the handrail. To open the gondola when it is closed it is necessary to lift the edge that blocks the ramp. The truck is immobilized with a brake. The swing gondola has rubber bumpers located on both sides.

ATTENTION!! For safety reasons, it is recommended to install fencing around the swing and an information sign. This swing should not be installed in parks with public access, only in closed and monitored areas.

A x B				
A=7000mm	42m2	1.14m	1	
B=6000mm
