Materials:

Structure, Metal: Ø80mm hot-dip galvanised steel posts. Great resistance to abrasion, corrosion and bad weather conditions.

Panels, ECOPLAY: 15mm thick HPDE produced with recycled materials. High-density polyethylene characterised by its resistance to chemical abrasives. As a polymer, it is unaffected by corrosion. Due to its light elastic nature, it offers high resistance to impact, making it very difficult to break.

Option to incorporate a 1m wide gate with hinges.

Ground anchoring screws not included.
