CITIZEN designer Litter Bin, total dimensions (width x Ø x height) 545x450x920 mm, 60 litres, made with a ductile iron structure and steel bucket (treated with the Ferrus process, the triple-layer protector for iron, which guarantees optimal corrosion resistance). Epoxy primer finish and polyester powder paint. Tropical wood planks (treated with a triple-layer Lignus coating, a fungicidal, insecticidal and water-repellent protector). Outdoor wooden slats (treated with a triple-layer Lignus coating, a fungicidal, insecticidal and water-repellent protector). Galvanised steel ring for securing the bag. Prepared for anchoring with expansion bolts according to the surface and project.
Optional not included: Customizable marking with 74x35 mm/80x100 mm aluminum plate.

Ductile Iron treated with FERRUS: iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, involving an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint. Forged black colour

Hardwood treated with LIGNUS: Wood from responsible forestry. Density greater than 930kg/m³, at 12% humidity, treated with a triple-layer LIGNUS coating, fungicide, insecticide, and water-repellent that provides protection against moisture penetration. Final finish with a layer of natural pigment in a satin finish, which provides additional protection against UV rays, the main cause of deterioration in this type of material.
