MUS design Litter Bin , total dimensions (Ø x height) 325x1030 mm, 40 liters, made with a folding steel bucket with a safety lock, with strips reserving a central space for greater robustness or possible markings.

Finished with Ferrus treatment, the triple-layer iron protector that guarantees optimal corrosion resistance. Epoxy primer and forged black polyester powder paint finish. Prepared for anchoring with M8 expansion bolts, depending on the surface and project.

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
