Litter Bin

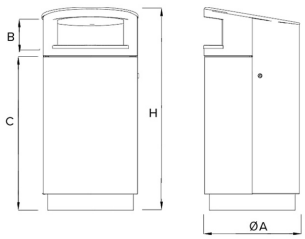

Boa

with Bucket | Black forged iron | Capacity 80L | Metal Key

ISO 9001 | ISO 50001 | ISO 14001 | ISO 45001

Litter Bin with inner bucket 80-liter tank, made of iron with FERRUS treatment and black wrought iron powder coating. Equipped with a cap, front extraction door with self-locking mechanism, and cigarette extinguisher.
Highly robust due to the thickness of the sheet metal and the reinforced structural frame. Locks with a standard triangular key. The cap protects the interior of the Litter Bin from wind and rain.
Recommended anchoring: Fixing using four Ø8 screws, not supplied.

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
