

Alu 5
JALU05

Curvo
JKSP20000

Julián
JJMM03

Set of 3 elements designed to promote safe and sustainable play in playgrounds.

Julián ref. jjmm03 Made of high-density polyethylene (HDPE) and AISI-304 stainless steel, combined with hot-dip galvanized steel and aluminum. Includes electro-galvanized and stainless steel screws, grade 8.8 DIN267, AISI-304. Dimensions 497x250x220 mm and maximum weight 16 kg. Impact zone with recommended safety surface according to EN1176-1:2017.

Alu 5 ref. jalu05 Structure in cold-extruded aluminum 6005 of 2.5 mm, resistant and anticorrosive. HDPE panels with antistatic particles that reduce electricity build-up from friction. Ø16 mm braided steel ropes coated with polypropylene. Metal parts in AISI-304 stainless steel, galvanized steel and aluminum, with electro-galvanized and stainless screws 8.8 DIN267, AISI-304. Dimensions 3340x40x40 mm and maximum weight 44 kg. Impact zone with recommended safety surface according to EN1176-1:2017.

Curved Swing 2 Seats ref. jksp20000 Metal structure with galvanized and powder-coated posts, highly resistant to abrasion and weather. Equipped with electro-galvanized and stainless screws grade 8.8 DIN267, AISI-304, and 5 mm stainless steel chains. Dimensions 2360x1280x114 mm and maximum weight 52 kg. Impact zone with recommended safety surface according to EN1176-1:2017.

All equipment is made with durable and sustainable materials (laminated wood, recycled polyethylene, stainless and galvanized steel), maintenance-free, long-lasting and with spare parts available for 10 years.
